Notes:

1. On-time graduation rates require disclosure only when there are 10 or more graduates from the program
2. Placement rates are only required if they are required by the state in which the institution resides or if the accrediting agency for the institution requires placement rates. Both the New York State Education Department or the Middle States Commission on Higher Education do not require the calculation or disclosure of placement rates for specific educational programs
3. We are not required to disclose information about our institutional finance plan, as the language states that we must only disclose information about institutional finance plans if the plan requires payment after the student completes the program. The payment plan at Dutchess Community College requires payment completion during the term the student is in attendance.
