

Dear Student:

This program requires medical information for you to participate in fieldwork.

- **Physical Examination:** An annual physical examination is required to be on file with the College Health Office prior to the start of fieldwork.
- **Tuberculin Screening: PPD/Mantoux or Quantiferon/IGRA:** An annual tuberculin screening is required. The date cannot expire within the semester. If a positive reactor, a chest x-ray is required. A chest x-ray cannot be in lieu of a QFT.
- **Hepatitis B:** Series of three (3) vaccinations or serology (titre) of positive immunity or signed Hepatitis B declination.
- **Measles:** Documentation of two (2) MMR vaccinations or serology (titre) of positive immunity
- **Mumps:** Documentation of two (2) MMR vaccinations or serology (titre) of positive immunity
- **Rubella:** Documentation of two (2) MMR vaccinations or serology (titre) of positive immunity
- **Varicella:** Documentation of two (2) Varivax vaccinations or serology (titre) of positive immunity
- **Meningitis:** Documentation of Meningitis ACWY vaccine within the last 5 years, or two (2) Meningitis B vaccines or a signed Meningitis declination.

Documents can be submitted by:

Email: healthoffice@sunydutchess.edu

Fax : 1-888-972-1736

Drop off: Health Office, Student Services Building, room 110

A clearance waiver will be issued upon satisfactory completion of health documents.
