

Computer Networking (CNC)

This certificate will provide students with the necessary skills to design and manage a local area network. Upon completion of the certificate, the student, in addition to acquiring an understanding of the basic data communication concepts, will be proficient in the basic skills to manage networks. Students completing the certificate may pursue careers in network support and administration. Students who complete the CNC certificate may choose to continue coursework to complete the entire A.A.S. degree in Computer Information Systems (CIS) at DCC. A Certificate is awarded upon completion of the requirements for this program.

A Certificate is awarded upon completion of the requirements for this program.
