

Staying Safe On-Campus

Student Guide to Covid-19 On-Campus Regulations

When on campus you are expected to:

1. Wear your mask (face covering that covers your nose and mouth). There will be masks available in the security office should your mask break or is damaged while on campus. students in face-to-face classroom settings will be required to wear facial coverings at all times.
2. Have your school picture identification with you at all times. You will need it to enter any building on campus.
3. Complete the online Student Health Screening form to ensure that you are not symptomatic, have not tested positive and have not been in contact with someone who has tested positive in the last 14 days.
4. Read and follow on-campus signage and markers for building entry and exits.
5. Wash your hands before and after use of bathroom facilities.

If traveling outside of the state, prior to returning to the campus you are expected to:

1. Adhere to the New York State Department of Health order that requires that all travelers from states designated under the Governor's Travel Advisory to abide by the mandatory self-quarantine. Per Executive Order, students arriving from states designated under the Governor's Travel Advisory must complete the Online Traveler Health Form and must self-quarantine in New York State for 14 days, starting on the first day they arrive in New York State. (*Note: This does not apply to anyone passing through a designated state for less than 24 hours through the course of travel.*) Additionally, you are required to take a screenshot of the completed Online Traveler Health Form before submitting the form and email the screenshot to either Human Resources or the DCC Health office healthscreening-student@sunydutchess.edu as appropriate.
2. For any person arriving from overseas, DCC will require that students adhere to the guidance from the [U.S. Centers for Disease Control](#):
 - Stay home for 14 days from the time you returned home from international travel.
 - During this 14-day period, take these steps to monitor your health and practice social distancing:
 - Take your temperature with a thermometer two times a day and monitor for fever. Also watch for cough or trouble breathing. Use this temperature log to monitor your temperature.
 - Stay home and avoid contact with others. Do not go to work or school.
 - Do not take public transportation, taxis, or ride-shares.
 - Keep your distance from others (about 6 feet or 2 meters).
