Reclaim My Math!

Math Skill Development Program – for ALL Levels!

Reclaim My Math provides a review of math skills for all levels from arithmetic to calculus, including beginning and intermediate algebra. This individualized program is designed to increase math confidence, using MyMathTest,™ an internet-based program. Independent skill development is reinforced with faculty-led instruction and tutoring coordinated by the Office of Academic Services and Testing at DCC. Participants can choose from the listed class meeting times, attending a minimum of two hours per week.

Program Benefits:

Review and refresh math skills using MyMathTest,™ an independent internet-based program.

Receive professional instruction and tutoring from the Office of Academic Services & Testing.

Connect with classmates via math related success workshops and problem solving activities.

Potential to improve math course placement and confidence. (Guidelines for re-testing eligibility are discussed at the initial meeting, but include an on-campus attendance component as well as completion of a set number of hours in the student's study plan. Placement retesting is optional.)

Fee: \$20 (Includes MyMathTest™ code.) Payable by credit/debit card online or by cash in person.

Registration: Register online at www.sunydutchess.edu/reclaimmymath or in person at Community Services, Bowne Hall, room 118.

Course Schedule: Choose **ONE** of the following sections to attend:
